## DETAILED ACTION

### *Drawings*

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because submitted drawing on 12/10/1999 is informal.

Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

## INFORMATION ON HOW TO EFFECT DRAWING CHANGES

### Replacement Drawing Sheets

Drawing changes must be made by presenting replacement sheets which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments section, or remarks, section of the amendment paper. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). A replacement sheet must include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and within the top margin.

### Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheet(s) must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change(s) to the drawings.

### **Timing of Corrections**

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eamon J. Wall on 09/15/2005.

The application has been amended as follows:

Claim 1, lines 3 and 7, limitation "adapted" has been deleted.

***Terminal Disclaimer***

The terminal disclaimer filed on 09/22/2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No 6,614,843 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Allowable Subject Matter***

Claims 1-3, 6, 10-12 and 15 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to anticipate or render the limitation (s), "means for identifying a largest prime number that is less than or equal to a number of data PIDs associated with said future viewership time schedules; and means for assigning a data PID to each video PID by performing a Modulo calculation of  $x \text{ Mod } y = z$ , where  $x$  equals a video PID values,  $y$  equals said largest prime number, and  $z$  equals a remainder, and said remainder is assigned to said data PID" obvious in combination with all other limitations of the claimed independent claim 1.

Note that limitations "means for identifying a largest prime number that is less than or equal to a number of data PIDs associated with said future viewership time schedules; and means for assigning a data PID to each video PID by performing a Modulo calculation of  $x \text{ Mod } y = z$ , where  $x$  equals a video PID values,  $y$  equals said largest prime number, and  $z$  equals a remainder, and said remainder is assigned to said

data PID" in claim 1 is allowed, as required under 35 USC 112 6<sup>th</sup> paragraph "means plus function" .

The prior art fails to anticipate or render the limitation (s), "identifying a largest prime number that is less than or equal to a number of data PIDs associated with said future viewership time schedules; and assigning a data PID to each video PID by performing a Modulo calculation of  $x \text{ Mod } y = z$ , where x equals a video PID values, y equals said largest prime number, and z equals a remainder, and said remainder is assigned to said data PID" obvious in combination with all other limitations of the claimed independent claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
